

YUNIS ALI-ZADE

Embedded Systems & Computer Engineering Student

 yuniselizade2007@gmail.com | GitHub: YunisAli-zade | Codeforces: Yunis_Ali_zade

SUMMARY

Computer Engineering student focused on Embedded Systems, Microcontrollers, and Low-Level Programming. Interested in hardware-software interaction, system design, and algorithmic problem solving.

SKILLS

- C, Python, basic C++
- Arduino, ESP32, Sensors
- UART, I2C, GPIO
- Algorithms & Data Structures
- Git, GitHub, Linux basics

PROJECTS

ESP32 Sensor System — real-time data collection & monitoring

Arduino Servo Control — motor control & embedded logic

Python Serial Tool — microcontroller communication system

COMPETITIVE PROGRAMMING

- 37+ problems solved (Codeforces)
- Data Structures and Algorithms

EDUCATION

National Aviation Academy — Computer Engineering (2nd year)

INTERESTS

- Embedded Systems
- Microcontrollers
- Robotics
- Algorithms
